# winsor & newton artists' watercolours

William Winsor and Henry Newton introduced moist watercolours in the 1830's. Since then the Winsor & Newton company have been proud of their reputation for supreme quality. Their artists' watercolours are made from the finest pigments in the highest concentration possible consistent with good handling quality.

# cotman watercolours

0390084  
Studio Set

Cotman provides a comparatively inexpensive selection of good quality watercolours. Colors include both useful traditional pigments, and reliable synthetic colors that replace some of the more rare and expensive pigments. The Cotman line has excellent transparency and tinting qualities.

# van gogh watercolours

Van Gogh Watercolours are made from the same top quality raw materials as Rembrandt Artists' Watercolours. The more costly pigments have been omitted from the assortment, and replaced with reliable, lightfast alternatives. Artists of all levels will be pleased with the clarity, fineness, permanence and easy handling qualities of these paints.

# rembrandt artists' watercolours

An extra fine quality of professional watercolour available in an extended range of luminous and brilliant colours. Made from choice pigments, including some unique colours, and a special blend of gum arabics that offer unique working qualities. The pigments are ground super fine on triple rollers. This ensures maximum colour clarity and allows the application of uniform washes even when highly diluted. The special gum arabic binder gives the colours a creamy feel and spontaneous colour release. It also provides an easy flow which penetrates paper fibres slowly and evenly. An immaculate transition from subdued to full bodied tints is virtually guaranteed.

995-SET	Set of 6 Colours With Palette	17.15

## reeves gouache sets

Reeves gouache paints provide quality color designed for beginners and students of all ages.

Item #	Description	Pk.	List/Ea.
8693350	Set 12 X 12 ml	6	10.65
8693351	Set 18 X 12 ml	6	15.35
8693352	Set 24 X 12 ml	6	20.80

### winsor & newton iridescent medium

Creates pearlescent or glitter effects. Particularly effective when mixed with the most transparent colours or applied over dark backgrounds.

Item #	Size	Pk	List/Ea.
3022865	75 ml	4	9.95

### winsor & newton art masking fluid

Art masking fluid is used to mask areas of the paper making them resistant to watercolour. Sections treated with art masking fluid must be allowed to dry before overpainting. Once dry these areas remain protected and cannot be penetrated by colour. Remove the dry fluid to reveal the uncoloured area.

Item #	Size	Pk	List/Ea.
2722902	75 ml	4	17.95

### winsor & newton aquapasto

A transparent gel thickening medium used to reduce flow. Gives a bodied effect to watercolours and gouache. Aquapasto washes will not flow into each other so they are excellent for clouds or multicoloured areas.

Item #	Size	Pk	List/Ea.
3020901	60 ml	3	25.50

### winsor & newton blending medium

Used to slow the drying rate of watercolours, allowing more time for blending. Useful for painting in hot, dry climates (or overheated studios!) where artists would like their colours to remain open and workable for longer periods of time.

Item #	Size	Pk	List/Ea.
3022863	75 ml	4	9.95

### winsor & newton granulation medium

Creates a mottled or granular appearance to colours which usually give a smooth wash. By adding granulation medium to colours which already granulate, the effect is further enhanced. A variety of results can be achieved by diluting the colour with combinations of medium and water.

Item #	Size	Pk	List/Ea.
3022860	75 ml	4	9.95

### winsor & newton gum arabic

Adding gum arabic to watercolour has three effects: it slows down the drying time of the paint, it adds further transparency to your colours, and it increases gloss. Gum Arabic washes have greater depth and appear more luminous than colour washes alone.

Item #	Size	Pk	List/Ea.
3222906	75 ml	4	17.70

### winsor & newton lifting preparation

Lifting preparation allows dry washes, including staining colours, to be more easily lifted from paper with a wet brush or sponge. It is an ideal preparation for beginners to prime their paper with, allowing corrections to be made more easily to their paintings.

Item #	Size	Pk	List/Ea.
3022861	75 ml	4	9.95

### winsor & newton ox gall liquid

Ox Gall Liquid is a wetting agent used to improve flow when mixed directly with watercolour. Useful for reducing surface tension on very hard sized papers which may otherwise resist a colour wash.

Item #	Size	Pk	List/Ea.
3222909	75 ml	4	14.70

### winsor & newton permanent masking medium

Permanent Masking medium is used to mask specific areas of the paper to make them resistant to water. This medium can also be tinted with watercolours and is ideal for isolating areas of fine detail. Sections which have been treated with Permanent Masking medium must be allowed to dry before overpainting. Once dry, these areas remain protected and cannot be fully penetrated by further washes. Cannot be removed.

Item #	Size	Pk	List/Ea.
3022862	75 ml	4	9.95

### winsor & newton texture medium

Texture medium contains fine particles and is used to create the impression of depth and structure. When used with multiple washes, texture medium catches different layers of colour and really gives a new dimension to watercolours.

Item #	Size	Pk	List/Ea.
3022864	75 ml	4	9.95

### winsor & newton watercolour medium

Improves flow and wetting of watercolours. Do not use with acid sensitive colours such as ultramarine.

Item #	Size	Pk	List/Ea.
3222911	75 ml	4	16.35

### lukas masking fluid

Used to block out and protect areas. After drying masking fluid can be painted over with watercolour.

Item #	Size	Pk	List/Ea.
242239	50 ml	4	8.75
